The fast bowlers were the team's biggest stars in their most successful-ever overseas tour of India, which the hosts won by 7-1. The last time England lost any series was in India in 2011. Broad and Anderson, both 31, finished the first Test in Hyderabad with figures of 11-184 from 45.3 overs, as well as taking five wickets in the second innings on day five. They have now bowled unchanged and this could go down as the most successful performance from the two spinners on a tour. Anderson, who is in the form of his career, has had a very good series with the ball. He has been more economical than in most of his previous Tests and has struck at 93.3 miles (151 km) an hour
